CONSTRUCTION DIVISION

# CABLE-LOK™

## Smooth Side-To-Side Spool Roll Tarp

### Description

For a reliable roll tarp system that performs well in windy conditions, the Cable-Lok™ is an ideal choice for belly dumps. With a variety of options on caps, tarp stops and bow supports, it can be configured to work the way it needs to for your hauling operation.

Self-cleaning end caps are available to help minimize the amount of aggregate or material from the top of your trailer that could pose a potential hazard other vehicles or windshields. If open loading space is critical, the Cable-Lok™ can be configured with wider-spaced heavy-duty bows and optional ridgepole to prevent tarp sagging and premature wear.

Upgrade to the electric Cable-Lok™; we can set up your system to be completely operational from the cab of the truck – a valuable feature for those locations that do not allow drivers to exit the vehicle.

***Distribution and Service on Six Continents!***

### Features

#### Telescoping/Indexing Crank Arm

Optimum adjustment in a crank arm! Nylon sleeve bushing lets you quickly change arm length with minimal resistance. An indexing handle adjusts to 6 angles set by 60° increments. Practical, easily disassembled 2-piece design for economical replacement.

#### End Cap Options

Our galvanized steel caps feature a weld-free construction that offers corrosion resistance and a front guard that reduces wind whip. The stainless steel caps were created for increased corrosion resistance, more durable performance and sharper appearance.

**Durabuilt™ Motor** The Durabuilt™ motor is backed by a 3-year limited warranty. All wiring, cable ties and connectors necessary for installation are included in the system when you receive it. Manual systems are available.

**Remote Options Available** Upgrade to one of our remote options, the SMART1+™ or SMART2™, for even more convenience and productivity. These eliminate the need to run a second set of wires to the cab for the rocker switch.

For more information on the Shur-Lok®, contact your local Shur-Co® dealer or your nearest Shur-Co® location, or visit us online at [www.SHURCO.com](http://www.SHURCO.com).
