

Fig. 1: The cords are attached at the 1/4 and 3/4 length positions on the trailer.

Inset: Made of nylon tubular webbing, the cords won't scratch the trailer or abrade the tarp.

Fig. 2: Drill one 19/64" hole just below the frame on a rivet row.

Fig. 3: Unroll tarp and drill another 19/64" hole below the tarp between two rivets on a rivet row.

How do I install my new Shur-Lok® Tarp Cords?

Installation will vary depending on the type of trailer. For most applications, one end of the cord goes below the bottom of the tarp, when it is unrolled, on a rivet row between two rivets on the rub rail side of trailer. On an exposed rib, you will drill directly into it. The cord goes over the tarp and the other end bolts into the upper frame or just below on the rivet row between two rivets. Stainless steel lag bolts and flat and lock washers with instructions are included.

To install your **Shur-Lok® Tarp Cords**, you'll want to position the first cord at the 1/4 mark on the trailer and the second at the 3/4 mark (*see Fig. 1*). Drill a 19/64" hole just below the frame on a rivet row between two rivets on the passenger side of your trailer (*see Fig. 2*). Unroll your tarp, letting it hang open (all the way down) under the latchplate. Mark and drill a 19/64" hole below where the tarp ends between two rivets on a rivet row (*see Fig. 3*). Follow this same procedure for the second cord. **Shur-Lok® Tarp Cords** are a standard length, so the tension should be automatic if cords are attached in the aforementioned locations.

INSTALL TIP: Before drilling the hole on the driver side, count the row of rivets from the front of the trailer to where you have selected to drill on the passenger side. Back on the driver side of the trailer, select the same row and count the number of rivets until you end up directly opposite your original drill hole.

For additional information about Shur-Co® products, give us a call at **1.800.474.8756** Monday through Friday, from 8:00 a.m. to 5:00 p.m. Central Time. Our friendly and knowledgeable Customer Service Representatives will be happy to answer your questions. Or log on to our website at **www.shurco.com**.
