

Item	Part #	Description
	1119555	Coiled Wire w/Dual-Conductor Plugs Kit
1.	1704654	Coiled Wire - 6 Ga. x 15'
2.	1115385	Dual-Conductor Plug

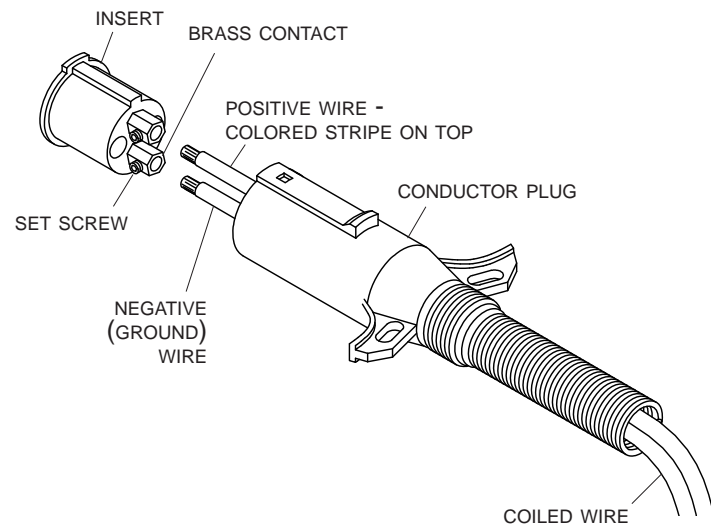

WIRE ENDS

STEP 1: Strip about 1/2" of wire insulation and slightly twist copper wires on both ends of coiled wire.

CONDUCTOR PLUG

STEP 2: Feed coiled wire through plug and into brass contacts on insert, aligning positive wire (colored stripe) on top. Tighten set screws to secure wires. Make sure no wire strands remain outside of brass contacts. Replace insert into conductor plug and secure screw.

STEP 3: Repeat step 2 to install second conductor plug on other end of wire.
