

## CONVERTS SUN'S ENERGY INTO ELECTRICITY

A021FL-0518

Power your tarping system without wiring your truck! Our lightweight but powerful solar panel uses sunshine to recharge its battery. Utilize it wherever an electric tarping system can be installed. There's no wiring to connect to the truck cab!

Compact 30-watt solar panel, just 3/4" deep, is the ideal choice for grain trailers, grain carts, dump bodies and more. The battery is rated for over 5,000 cycles and can be safely installed vertically or horizontally. Its high-efficiency silicon cells are protected by a weatherproof plastic layer. Installation is quick and easy, and you can choose from available options like our wireless SMART2™ or SMART3™ remotes or our trailer- or truck-mounted rocker switch for additional operator convenience.

**Key Features:** Solar Panel [26-3/4" x 16-3/4"], Sealed 12V Gel Cell Battery, Aluminum Battery Box [11" x 9-1/4" x 5-3/4"], Mounting Hardware.
