

SHURTITE

RETRACTABLE TARP SYSTEMS

GEN3™

PUSH-BUTTON FRONT RELEASE IN LESS THAN 10 SECONDS!

DYNAMIC REAR TENSIONING

Set It & Forget It! Automatically Compensates for Changes

- Removable spring-loaded rear braces provide consistent tarp tension
- Compensates for varying temperatures & camber changes as trailer load changes

NEW FLAT HEADBOARD DESIGN

Requires Just 3" of Deck Space

- Slim modular design allows for quick & easy replacement of side covers and panels
- Added reinforcements
- Requires just 3 inches of deck for mounting; combined with our already reduced foot print will give even more open deck space for loading & unloading

TITETRAX™ TRACK SYSTEM

34% Lighter than Magnum Track – Rolls Easier, Won't Collect Debris

- More rigid bows = less movement during transport
- More rugged track = less damage from lift truck impacts
- Replaceable nylon wear strip
- Aluminum light bar now accepts conspicuity tape & LED lights

LOK-TITE™ FRONT ELECTRIC RELEASE

Removes Tarp Tension, Releases Front Bow from Driver Side

- Driver side operation
- Simple push-button operation; no need to move to passenger side
- Incredibly fast opening & rolling

Captures Front Bow & Tensions Tarp during Closing

- Dual, high-torque electric motors close & lock system in under 10 seconds

Sectional Tarp		X	X

* Traditional Magnum track also available for the Magnum system.

INCREASED SAFETY

One point access without attention to the rear of the trailer.

REDUCE WORKERS COMPENSATION

Less physical requirements, just one push of a button to retract tarp.

RETAIN DRIVERS

Less driver turnover with easy-to-operate tarp systems.

INCREASED PRODUCTIVITY

Time = Money
Less time loading = More loads.

1.800.474.8756

GEN3™ IN MOTION

CLOSED

When fully closed, the Lok-Tite™ front electric release captures the front bow and tensions the tarp.

Release the tarp tension by rotating the lever on the headboard and pressing the OPEN button.

Push tarp system/bows to the front or back of the trailer, sliding on the TiteTrax™ track system.

OPEN

When the system is fully opened, the bows take up 87 inches of deck space.

ABOUT SHURTITE™

Shur-Co® entered the retractable tarp market in 2014 with the rebranded product line, ShurTite™, formerly Roll-Tite™. ShurTite™ is proud to offer dozens of standard configurations for flatbeds, trucks and trailers, plus a staff of engineers who can design to meet your individual hauling requirements. ShurTite™ backs its products with an end-to-end two-year warranty. That's how confident we are in our materials and workmanship. We know our customers will be completely satisfied.
