- Independent 2-Wheel Dual-Motor Drive Kit
- ShurLink™ Remote Compatibility
- Sealed Receiver Box
- SMART-wire™ Connections
- 12 Volt Unit
- Ships with a Cab Wire Kit for Your Tractor
- Fits on 10" - 12" and 13" - 14" Auger Kit
- Electric Product Warranty

Quickly swing your auger hopper into position from the comfort of your cab. The DriveMaxx™ kit comes with a LiteALL™ wireless work light kit and plug-and-play SMARTwire™ connections. Independent 2-wheel dual-motor drive is powered by 220 ft.lb. of torque per motor. Direct-drive motors are designed with right-angle rear drives and no chains or chain tensions. Provides sealed SMARTwire™ connections and receiver box and completely enclosed gear boxes for watertight reliability. Control box can be mounted on the discharge tube if desired.

The included push-button LiteALL™ LED flood light features a magnetic base for easier, more adaptable mounting. The manual version can be upgraded to a ShurLink EZR™ or PRO for remote control. An open light channel lets you add a second LiteALL™ to illuminate auger discharge or for placement on the main auger tube to light the work area.
