

FITTED TARPS: FIT YOUR SPECIFICATIONS

Various Color Options Available. CALL for Details.

While our complete tarping systems are remarkably affordable and efficient, sometimes a fitted cover may be enough to meet your tarping needs. We can design and manufacture whatever you're looking for! Shur-Co's fitted tarps are constructed much like fitted bedsheets, with a pocket around the edge of the cover and a stretch cord threaded through it. The protective tarp simply slips over your farm box or fertilizer spreader box, and we offer both peaked and standard styles. A wide range of options are also available, including heavier fabric (18-oz. vinyl is standard), tarp reinforcements, straps and ropes. Standard sizes are listed below, but we can design to your exact specifications.
