

SHUR-MATIC®: ALUMINUM FLIP TARP

ELIMINATE JOINT WEAKNESS

1-piece extruded aluminum arms prevent joint failure and are guaranteed unbreakable.

FINER TENSION ADJUSTMENT

High-strength steel pivot shafts with a hex design offer precise tension adjustment.

GATORSHIELD® TOUGH

Galvanized steel tubing provides strong, corrosion-resistant tarp tube connections.

INCREASED CORROSION RESISTANCE

Anodized aluminum arms, plated steel parts, and e-coated springs enhance durability.

ARM OPTIONS

For shorter applications that need to clear doors or loading areas, the arms come with a 2', 30° bend. On longer applications, the system comes standard with straight arms.

FAST AND EASY TARP INSTALLATION

A solid vinyl or mesh tarp can be mounted with screws directly into the extrusion or with square nuts inserted into the tarp axle channel for fast, easy replacement.

STANDARD ELECTRIC SYSTEMS

Comes with a Durabuilt™ motor (3-year warranty) and cab-mounted rocker switch; ShurLink™ remotes available.

SUPPORT

Find help with various support pages, including patents, warranties and legal information.
