

SOLAR POWER™ PACK, TRICKLE CHARGING KIT & CLEARANCE LIGHT

SOLAR POWER PACK | *Above Left*

The 30-watt solar panel, only 3/4" deep, is perfect for grain trailers, grain carts, dump bodies, and more. The battery, rated for over 5,000 cycles, can be installed vertically or horizontally. High-efficiency silicon cells are protected by a weatherproof plastic layer. Optional wireless remotes or trailer/truck-mounted rocker switches enhance operator convenience.

TRICKLE CHARGING KIT | *Battery Box, Middle Bottom*

Trickle charging kits route power from the lead trailer to the gel battery on the pup trailer, allowing the pup trailer to operate Shur-Co® systems independently of the tractor. Box Cover Included in Kit.

CLEARANCE LIGHT

Round amber clearance light is recommended trailer use whose current light configuration cause interference issues.
