

4500 SERIES HD: ELECTRIC ROLL TARP

- Spiral Spring Return
- HD Front/Rear Extruded Aluminum Torsion Arms w/Flex-Elbow and Boot
- Custom Motor Shroud and Sealed Control Box
- SMARTwire™ Sealed Harness
- ShurLink PRO™ and ShurLink EZR™ Remote System Capabilities, Available Upon Request
- HD Mounting Bracket

The 4500 Series HD features a powerful American-made motor with all-metal gearbox and incredibly reliable magnetic brake. HD extruded aluminum torsion arms are equipped with durable elbows for flexibility to move smoothly over loads.

Available for all grain trailer makes and models and most grain carts. The 4500 Series HD's motor produces optimal rather than increased torque. No electrical energy is used to actuate the brake, so there are no electrical connections to misfire. A patented pivoting motor mount allows for any misalignment of the roll tube without stress to the system. The heavy-duty arms are backed with a limited lifetime warranty. They come preassembled with a super-sturdy mounting bracket. The roller bearing-style rear arm bracket has a low-friction design that won't wear out. Both arms are inset to prevent obstruction of clearance lights. An improved rubber boot on the flex-joint guards against damage from field and road debris. An additional flex-joint, called the Gate Flex™ option, bypasses side- and top-mount hinges to accommodate tailgates. A protective bolt-on shroud facilitates easy motor access.
