SHURLINK™ TIP:

The app is also an EZR™ remote!

SHURLINK™ WIRELESS SYSTEM RECAP

The ShurLink™ WIRELESS SYSTEM, offered exclusively by Shur-Co®, introduces innovative properties while retaining your favorite features from its predecessor, the SMARTTransmitter® series. ShurLink™ Wireless System replaces the SMART2™ and SMART3™ remotes with two new remotes, the ShurLink EZR™ and ShurLink PRO™.

Based on the most advanced industrial version of Bluetooth technology, ShurLink™ delivers greater reliability and range to tarping applications. The EZR™ and PRO continue to offer Shur-Co's best-in-class Express operation, allowing for the simple single-touch control you are accustomed to.

- The ShurLink™ system introduces two new water-tight receiver (RX) enclosures and two new remotes.
- ShurLink™ utilizes a single communication platform for all devices allowing the new family of receivers and remotes to conveniently operate nearly every application.
- The ShurLink™ phone app brings customization, configuration and remote capabilities to your ShurLink™ system. Available for iOS and Android.
- EZR™, PRO, and the app all use the same ShurLink™ Wireless System making it easy to mix and match any combination of remotes, the app, and receivers on a single trailer or train.

SHURLINK EZR™ AND PRO REMOTE (TX) COMPARISON

As an innovator in the tarping industry, Shur-Co® has a long-standing tradition of engineering, manufacturing and selling the most advanced products on the market. This tradition continues with the ShurLink™ Wireless System. The ShurLink™ series replaces the SMART remotes, staples in the Shur-Co® product family. Shur-Co® discontinues the SMARTTransmitter®, SMART2™ and SMART3™ line of remotes and replaces them with advanced ShurLink EZR™ and ShurLink PRO™ remotes (TX's). See below to compare the features of the new ShurLink™ remote series.
