

**Heavy-Gauge
Roll-Tube
to Motor Connection**

**Multi-Axis Rear Flex
Arm Swivel**

**SMARTwire™ Sealed
Harness Pre-Wired,
Sealed Control Box**

**Patented Pivoting
Motor Mount**

Built for the extreme demands of waste, recycling, and construction, the Shur-Lok E-Series for Refuse & Chip trailers delivers durability, reliability, and fast installation. Designed with operator input and proven in the field, it eliminates common failure points, keeping your loads covered, your fleet moving, and maintenance costs low.

Features	Benefits
Heavy-Gauge Roll-Tube to Motor Connection	Creates a strong, secure motor connection for long-lasting performance.
Multi-Axis Rear Flex Arm Swivel (Patent Pending)	Moves smoothly with a wider range of motion to reduce wear and keep operation reliable.
SMARTwire™ Sealed Harness Pre-Wired, Sealed Control Box	Protects against corrosion and loose connections, cutting down on costly repairs.
Patented Pivoting Motor Mount	Flexes with the roll tube to reduce stress on the motor and keep systems running smoothly.
