

Heavy-Duty Design

Built tough with all-metal gears and a durable housing made to handle rough roads and hard stops.

Smart Power

Torque that adjusts based on wire size, length, and battery voltage.

**Push Button
Wireless Operation**

Push button control with the ShurLink[™] wireless system.

Features	Benefits
Heavy-Duty All-Metal Gear Motor	Built to last. The heavy-duty gear motor stands up to everyday use and keeps things running smoothly.
Automatic Brake System	Keeps your load secure. The brake automatically holds the door in place, even on slopes or uneven ground.
Universal Mounting Bracket	Installs easily on most trailer types. No complicated setup or special parts needed.
Easy 1-Bolt Manual Changeover	Switch from electric to manual in seconds with one simple bolt, perfect for quick backup use.
Master Disconnect Switch	Stay safe and service-ready. The labeled power switch makes it easy to shut things off when needed.
Preassembled for Fast Installation	Comes ready to go. Save time and get up and running faster with minimal setup.
Patented SMARTwire [™] Sealed Harness	Plug it in and go. Our sealed SMARTwire [™] harness resists dirt and moisture, no crimping, stripping, or guesswork.
ShurLink PRO [™] & ShurLink EZR [™] Remotes with SMART-Touch Technology	Control made simple. Get instant feedback with the PRO's digital display or easy, one-touch operation with the EZR.
